

Don't Take the Bait!

Phishing Awareness Guide

Phishing Prevention DO's:

- ✓ Verify the sender
- ✓ Report suspicious messages to IT
- ✓ Use unique, strong passwords
- ✓ Enable Multi-Factor Authentication
- ✓ Hover over links before clicking

Phishing Prevention DON'Ts:

- ✗ Don't email passwords
- ✗ Don't reuse passwords
- ✗ Don't click on unknown links
- ✗ Don't open unexpected attachments
- ✗ Don't trust urgent requests

If You Clicked a Phishing Link...

- 1 Disconnect from the network
- 2 Report it to IT immediately
- 3 Change your passwords
- 4 Monitor your accounts
