Objective

Motivated cybersecurity student with hands on experience in networking, system monitoring, and communications engineering.

Education

Hocking College — Cybersecurity & Network Systems
2024 – Present

- GPA: 3.5

Point Pleasant High School — High School Diploma

- First Team All-Conference (Baseball)
-

Technical Skills(Basic)

- Networking fundamentals (IP addressing, troubleshooting, connectivity)
 - Cisco basics (VLANs, SSH, ACLs)
 - Wireshark and Packet Tracer
 - Windows systems and basic administration
 - Security fundamentals (monitoring, access control, threat awareness)
-

Rockbridge Revolution Winery

2024 – 2025

- Balanced work responsibilities with academic coursework
 - Demonstrated reliability, time management, and adaptability
 - Assisted with daily operations and customer service
-

Professional Experience

Communications / Voice Engineering Intern

Holzer Health System

- Configured SSH access on voice gateway (VG) devices across every Holzer location to enable secure remote management
- Performed remote configuration and access verification to ensure reliable connectivity across sites
- Created detailed port documentation by auditing VG devices and recording port usage
- Developed and maintained an Excel based asset tracking system, mapping ports to connected devices/services
- Assisted in maintaining the communication infrastructure and troubleshooting connectivity issues
- Gained hand on experience working with enterprise-level voice and network systems in a healthcare environment

Piggly Wiggly

2023 – 2024

- Delivered customer service in a fast-paced environment
 - Supported team operations and assisted coworkers
 - Built strong communication and teamwork skills
-

Projects

Network Traffic Analysis (Wireshark Lab)

- Captured and analyzed live network traffic
- Identified ICMP sweep, TCP SYN scan, and DoS-like patterns

Secure Remote Access (SSH Configuration)

- Configured SSH for secure remote access on network devices
- Implemented authentication and encrypted connections

Automated Log Monitoring (PowerShell Script)

- Created and scheduled scripts to collect security logs
 - Automated system monitoring tasks
-

Leadership & Achievements

- First Team All-Conference Athlete

- Offensive MVP
 - Leadership Award
 - Defensive MVP
 - Highest Batting Average
-

Additional Strengths

- Strong work ethic and discipline
- Ability to manage multiple responsibilities
- Fast learner with strong interest in cybersecurity
